PROFESSIONAL SUMMARY

Senior Web Developer and SEO Specialist with 8+ years of experience building responsive, search-optimised WordPress websites and driving sustainable organic growth. Pairs hands-on front-end engineering (WordPress, Elementor, WooCommerce, HTML5, CSS3) with data-driven SEO across technical audits, on-page optimisation, content strategy and ethical link-building. Backed by a network engineering foundation, delivers high-performance, penalty-safe solutions that convert organic search into measurable business results.

PROFESSIONAL EXPERIENCE

SEO Consultant
Sep 2025 – Present

WASFA Digital Marketing Agency — Riyadh, Saudi Arabia (Remote)

- Lead SEO strategy across multiple KSA client accounts: technical audits, on-page optimisation and search-intent content frameworks aligned with Google best practices.
- Build bilingual (English/Arabic) ranking strategies and AI Overview visibility plans, combining NLP, LSI keyword planning and topical authority models.
- Turn organic visibility into qualified leads through landing-page optimisation, internal linking and conversion-focused content.

Web Developer – SEO
May 2023 – Present

ScaleUp — Muzaffarabad, Azad Kashmir (On-site / Full-time)

- Develop and maintain WordPress websites with clean, SEO-friendly architecture, from concept through deployment and ongoing support.
- Combine front-end development with on-page and technical SEO to improve crawlability, page speed and organic rankings.
- Produce responsive components and service pages with structured metadata and contact-form integration.

Web Developer
Jan 2025 – Present

Spart Care — United Kingdom (Remote)

- Design and maintain WordPress websites for healthcare services with a focus on accessibility, performance and UK standards.
- Deliver responsive, conversion-oriented layouts that support patient engagement and trust.

Web Developer
Nov 2024 – Oct 2025

Nextnanotech Consultancy — United States (Remote)

- Built scalable WordPress solutions with SEO and e-commerce optimisation across client platforms.
